About Us

paul&ernst is an innovative company quickly making a name for itself in the world of mobile gastronomy. As Austrian newcomers we bring a breath of fresh air to the streets. With our stylishly designed food bikes we are setting new benchmarks by combining technical precision, innovation, and high-end design.

Ernst Stockinger and Paul Kogelnig, the former an architect, the latter a product designer, have always wanted to play an active role in designing their immediate environment. Through paul&ernst their goal is to couple elegant technical solutions and an artistic vision in order to provide cities, bikers and park-lovers with high-end products. Their mobile street food bikes mark a milestone in the development of the use of urban space today. By reshaping and reimagining bike trends, they cater to the needs of the most recent generation of consumers.
