COOKING BIKE **FLEET**

We offer endless possibilities to innovative cooking talents. If you choose a gas-powered cooking appliance, your food bike will turn into a fully independent mobile kitchen for the entire workday.

The electric plug-in option allows you to access any location's power grid and use an even greater variety of appliances. Even professional chefs are awed by our product.

E-CARGO BIKE

Our e-cargo bikes comply with **EU Pedelec Guidelines** and always come with standard **high-end equipment**. With **Magura's Big Twin**, our bikes are equipped with the most secure bike brakes on the market. The **new Bafang E-Cargo mid-mounted engine** is the most robust and reliable of its kind.

E-CARGO BIKE – THE BASIS FOR EVERYTHING

Specifically designed by us for the street food market, our e-cargo bike is unique. The battery supplies the cooling unit, water pump and bike engine with low power for up to 10 hours. The bike base provides space for all electronics as well as different battery sizes of up to 1.8 kWh.

The lithium ion battery with integrated battery management system allows for long ranges, making our Street Food Bike the **superstar of sustainability!**

E-CARGO-BIKE by **paul&ernst**

- Powder-coated steel frame
- Mid-mounted 500 W Bafang engine

BIKE TRANSPORT BOX

Our **P&E transport boxes** are regionally produced, made of solid wood and certified for international shipping (IPPC standard).

Our transport boxes are CO₂ neutral.

COOKING BIKE DIMENSIONS

MAKING THE MOST OF EVERY INCH! Our e-cargo bike is the only one in the world that offers a 270 cm work surface and, when closed, still fits through standard door frames (W 88 cm) and into freight elevators. We thought out every element of our ergonomically designed bike down to the very last detail to make your daily workflow and even world-wide shipping a breeze.
