E-CARGO BIKE

Our e-cargo bikes comply with **EU Pedelec Guidelines** and always come with standard **high-end equipment**. With **Magura's Big Twin**, our bikes are equipped with the most secure bike brakes on the market. The **new Bafang E-Cargo mid-mounted engine** is the most robust and reliable of its kind.

E-CARGO BIKE – THE BASIS FOR EVERYTHING

Specifically designed by us for the street food market, our e-cargo bike is unique. The battery supplies the cooling unit, water pump and bike engine with low power for up to 10 hours. The bike base provides space for all electronics as well as different battery sizes of up to 1.8 kWh.

The lithium ion battery with integrated battery management system allows for long ranges, making our Street Food Bike the **superstar of sustainability!**

E-CARGO-BIKE by **paul&ernst**

- Powder-coated steel frame
- Mid-mounted 500 W Bafang engine
- Shimano Deore gear shift
- Magura Big Twin hydraulic brake
- Adjustable stainless steel handlebar

BATTERY PACKS:

• Small 0.4 kWh

• Medium 1.0 kWh

• Large 1.8 kWh

MIRACLE ON WHEELS

A large storage room and an XXL presentation area:
on the road or at your chosen location, your information
material and samples are always safely stored.

**Our Promotion Bike Large is the
perfect tool for avant-garde marketing!**

**PUSHCART
POZZETTI**

OUR NEW **PUSHCARTS**

Looking for an innovative solution for a mobile point of sale? Our **paul&ernst Pushcarts are just the thing for you!** They are more compact and economical than the street food bikes: extremely mobile, easy to handle, and flexible thanks to the integrated battery. The Pushcarts are 100% customizable and can be used indoors and outdoors. **Switching locations within minutes has never been easier!**

BIKE TRANSPORT BOX

Our **P&E transport boxes** are regionally produced, made of solid wood and certified for international shipping (IPPC standard).

Our transport boxes are CO₂ neutral.

ICE CREAM BIKE **DIMENSIONS**

MAKING THE MOST OF EVERY INCH! Our e-cargo bike is the only one in the world that offers a 270 cm work surface and, when closed, still fits through standard door frames (W 88 cm) and into freight elevators. We thought out every element of our ergonomically designed bike down to the very last detail to make your daily workflow and even world-wide shipping a breeze.
